**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am using Internet and phone services from local provider Sonic.net with DSL technology over unbundled AT&T copper lines.

Sonic offer is substantially better than AT&T one over the same physical infrastructure. They have great customer support, better price and offer some extra free services not available from AT&T, like free static IP, free DNS and registrar services for one domain, email addresses, free fax services, free calls to several European and Asian countries and more.

I daily rely on these services and I support local competitive broadband internet providers.
